Xmas and New Year Cards at cost. CHRISTMAS BALLAD AT BREN GLES No. 129 King st.

Mary had a little cake, Its ice was white as snow;
'Twas fair to see and sweet to taste, For Brengle makes them so.

She took the cake to school one day; It was against the ru e; For children all love Brengle's cakes And take a bite in school. An ! so the teacher took the cake

And est it on the s v : And after school, with solemn face, She told the could a sie. She said the mice had eat the cake

And thought it very nice; That all of them that tasted it Had turned to caudy mice. The candy mice the windows show

And tempt the boys to break, Were just the very little mice That nibbled Mary's cake. But Mary was not fooled at all.

Too thin," was all she spake, The teacher quick to Brengle's skipped And bought another cake.

And Brengle has lots of such Cakes on hand for Christmas His CH als CM as CAKES, Black, Plain are sold cheaper than they can be manufactured at home Also Cream Puffs Tarts and Partry, Candies and Taffy of all kinds. Pies a specialty Fruits, Nuts. Confectioneries, Caromels and Sugared Fruits. He furcishes the best OYSTERS and caters for families and entertainments

The Horrible Hog.

vertisers.

Another horrible case of tric inosis spiralis the s cand within a week which has occurred in Unicigo, was brought to notice last Tuesday. The vic ims ere H. C. Hansen, a contrac or, and his wife, who, with their three children, reside on North Ashland avenue. On Saturday, Noven ba 27, they bought in a burcher stop on Mi wakee averue a emiked and sugar cured ham, wetshing about time and one had p unds. O . the Sanday escular following they on up a persion of the ham into this slices and

about two oute s at different times Their children also ate a por i n of the h-m. O . Monday morniog Mr Hans-n went out and aitend d to bis business as usual. He f. lt a pain in his stomach during the afternoon, but after taking a drink of brandy he felt relieved. On Tuesday afternous at 3 o'clock he was again sken with severe pains to the same teg on, On the fitth day sher eating the ham be was uoable to work, his bowels moved with g eat fr quency, and he fi ally seat for Dr. C. Fenger. Mrs. Hanson had the same symptoms as ber husband, but the disease developed much more slowy. This is accounted for by the fact that she partook of less of the trichiotus ham.

ate it with bread and butter. Mr. Hansen ate from two to four ounces, while his wife ate

The doctor, who was familiar with the disease produced by trickton having made a special study of this su jest to the University of Copronagen, asked them if they had eaten any uncocked or raw meat. Not considering am ked ham as raw meat, they denied having eaten any. He was puzz led somewhat, recognized and the state of the state o nizing symptems of the presence of trichit te. He insisted that they mus have eaten uncooked meat. They sold their relatives of his suspicloss, and final y the question was put whether than had caten any smoked ham. This they readt, admitted, and the doc or, procuring a few picces of the bam, su j cted it to a microcoopical analysis. In one piece, weighing less der be forthwith inserted in the Alexandria Gathan an ounce, he discovered not less than zette, a newspaper published in the city of Alexandria Cartella and the city of Alexandria Cartella analysis. fifteen thousand trichic. This placed the exandria, once a week for four successive weeks, and posted at the front door of the Court House of the sickness of Mr. Hansen and his

wife beyond doubt. The patients were removed to the horse of a relative, where they were made as comfor able were prescribed. puls) wie 9) and histemperature 933. During the day his pulse fell as low as 80, while his temperature went up as high as 1021. He suffered a terrible paro about the stomach; and later, when the trichit to had made further progress, in the mu-cles of the arms and legs. His tempera ture fluctuated rapidly all day and night. At half past seven o'clock in the evening he was utterly prostrated with pain, and his death was momentarily expected Early next morning morphiae was administered, and his sufferings were temporarily relieved. That day, although still ver, weak and in a critical condition, he

seemed to be resting easier.

The symptoms of his wife's ilness were nearly the same, but much aggravated. She, like ber husband, was troubled with vomittog, pains, first in the pir of the stomach and later in the muscular tissues. On Sanday evening at five o'clock her pulse was 130 and her tem persture 1031, but she then had no pain and feit bright. An nour later her hands and feet became oold, her pulse was 126 and her temperature 1031. So convinced was she that her end was near that she bade good bye to her friends. She becom better, however, although still in great pain. As the disease progressed the most marked symptoms were a constant desire to vomit and fluctuation of the pulse and

temperature. At one o'clock yesterday morning an ici otion of morphine was administered with satisfactory results, her pulse and temperature being reduced nearly to a normal condition. The muscular pain set in at six o'clock at night. She did not sleep at all natil next forenoon, when her condition was more hopeful, and ber friends were beginning to think that she would survive. A reporter visited the sick room and found the sufferers pate, emaciated and scarcely sole to speak. The three children, all gil; ranging from two to fou teen years of age, h-vo not yet shown any symptoms of trichit m, although they ate of the same ham as

their parents. Three members of the Italian family on West Randolph street, made sick by esting raw ham sausage containing trichi se are still prostrated, and obliged to keep their beds. Louise Palinghi the mother-now a widow, her husband having succumbed to the terrible disease-lies very near the point of death. Mary, eleven years of age, and Lena, six years are in the same conditionwasting away and losing strength every hour.
Johnnie, eight years of age, is a little better and able to sit up. Dr Tomb cken, who is in at-tendance, has hopes of the little fellow's recovery, but can not offer any encouragement regarding the rest of the family. The characteristics of the sick tess are loss of

fish, the form dwindling to a skeleton in a short use. Then follow pairs through the muscles and abdomen, seeming to wear the very bone; extreme thirst, accompanied by loss of sleep; and hour after hour passes in feverish restless ness. Ab vall the patients bec me so weak that they cant ot turn in bed. Finally the appetite is gone, and then recovery is next to im possible.
